

PEELER CENTRIFUGES

PEELER CENTRIFUGES

Designed to handle a wide spectrum of materials, including Pharmaceuticals this range of machines offers process cleanliness without operator intervention. The design ensures a crevice-free polished internal finish with no dead areas. The peeler knife mechanism facilitates the complete removal of the product heel. Where necessary, a through-the-wall configuration completely isolates product and process from the actual machine operation and maintenance area. Peelers can be produced in a wide range of materials, and all incorporate advanced PLC control systems. Nitrogen purging is an option.

PHARMA PEELERS

CHEMICAL PEELERS

FEATURES:

- Suitable for hygiene-critical applications.
- User friendly CIP system, fully opening casing -100% basket inspection.
- Batch integrity : batch to batch containment: no cross contamination
- Filter and decanting versions.
- Capacity per charge from 60 to over 800 Litres.
- Conformity with CE regulations, EN12547, ISO 9001, and all relevant standards, including cGMP where required.

EQUIPMENT RANGE

A wide range of basket sizes are available. Please contact ipdsales@broadbent.co.uk to discuss your requirements.
